

WE ARE HIRING!

Project Research Assistant

SLIBTEC is seeking a motivated Project Research Assistant for a period of 6 months to support the chemical synthesis of organic compounds. The successful candidate will work under the supervision of the Principal Investigator and will be responsible for synthesizing, purifying, and characterizing compounds as well as maintaining accurate documentation and reporting.

Responsibilities

- Perform chemical synthesis of compounds according to established protocols.
- Purify synthesized compounds
- Characterize compounds using analytical techniques.
- Maintain detailed laboratory records, experimental logs, and ensure proper data management.
- Prepare progress reports and summaries for the project team and Principal Investigator.
- Ensure compliance with safety, quality, and regulatory standards.

We are looking for

- Bachelor's or master's degree in Chemistry, Pharmaceutical Sciences, or a related field.
- Practical experience in polysaccharide chemistry or polymer derivatization is preferred.
- Knowledge of purification and analytical characterization techniques.
- Strong attention to detail, laboratory discipline, and documentation skills.
- Ability to work independently and as part of a collaborative research team.

Please email your CV including two non-related referees, mentioning the position in the subject line, before 26th February 2026.
