

# WE ARE HIRING!

## Laboratory Assistant

SLIBTEC is a high-tech ecosystem fostering innovation through cutting-edge technologies, dedicated facilities, and a vibrant research culture. It provides a linear research, development and manufacturing platform for the biotechnology business.

### We are Looking for:

- Degree or Diploma in Biological stream or NVQ Level 4 - 6
- Proven laboratory experience in the relevant field will be considered as an added advantage

### Responsibilities:

- Set up, calibrate, and maintain laboratory equipment
- Ensure that all instruments are in proper working condition, performing routine checks and addressing issues promptly
- Provide hands-on assistance to researchers during experiments, data collection and equipment handling
- Follow experimental protocols meticulously to maintain consistency and accuracy when required
- Assist in laboratory related data entry and documentation adhering to GLP principles, ISO 17025 and ISO 15189 standards
- Assist in the reception, labelling, handling and storage of biological, chemical, or other types of samples
- Follow proper procedures to prevent contamination and ensure sample integrity
- Adhere strictly to safety protocols and guidelines to create a secure working environment
- Monitoring and keeping track records of the usage of chemicals, consumables and equipment while maintaining relevant inventories
- Collaborate with researchers, scientists, and other laboratory personnel to facilitate smooth workflow
- Communicate effectively regarding experiment schedules, equipment availability, and other relevant information
- Participate in quality control measures to ensure the reliability and reproducibility of research outcomes
- Report any deviations from established laboratory protocols
- Perform routine maintenance tasks for laboratory equipment
- Maintain cleanliness and order in the laboratory space
- Maintain detailed and organized records of experiments, procedures, equipment maintenance, and calibration
- Diagnostic laboratory testing to be carried out

### Competencies and Skills:

- Knowledge of laboratory safety measures
- Outstanding interpersonal skills
- Strong service and results orientation
- Excellent communication skills with a high level of written and verbal skills
- Proficiency in managing multiple tasks

Please email your CV including two non-related referees, mentioning the position in the subject line, before  
8th June 2026
