

WE ARE HIRING!

Research Scientist

SLIBTEC is a high-tech ecosystem fostering innovation through cutting-edge technologies, dedicated facilities, and a vibrant research culture. It provides a linear research, development and manufacturing platform for the biotechnology business.

We are Looking for:

- Ph.D. in Molecular Biology/Genetics/Bioinformatics or a related field from a recognized university.
- Proven experience in molecular and recombinant technology, genetics or bioinformatics will be considered.

Responsibilities:

- Research idea-generation as per the global and national needs, to identify new research opportunities.
- Conduct and supervise laboratory experiments as assigned, to ensure timely delivery of expected outcomes.
- Maintain accurate laboratory notebooks and research documentation to support innovation and IP protection.
- Maintain records in compliance with IP protection guidelines and confidentiality policies.
- Mentor and supervise junior researchers as assigned.
- Support in organizing workshops and conducting regular service support.
- Develop international grant proposals for research or technology support in molecular biology and recombinant DNA technology/ genetics or bioinformatics.
- Identifying commercialization opportunities and provide necessary support for business development.
- Perform any other duties assigned by the Management.

Competencies and Skills:

- Ability to work independently and work in multidisciplinary team collaborating with national and international organizations.
- Implementation of intellectual property and innovation management.
- Experience in experimental design, data analysis, and scientific problem-solving and to assist other team members.
- Excellent scientific writing, documentation, and presentation skills with correct attitude on team members.
- Proficiency in managing multiple tasks and handling confidential information.
- Strong analytical and problem-solving skills.

Please email your CV including two non-related referees with reachable telephone contacts, mentioning the position in the subject, before 17th July 2026.
